Challenges in Laparoscopy & Robotics

The European Congress of Laparoscopy and Robotics 2016

Some of the most prominent Laparoscopic Urological Surgeons will perform innovative live surgery demonstrating the full spectrum of urological procedures.

June 9-10-11 2016
Lisboa, Portugal

Los Angeles, USA
Vito Pansadoro
Rome, Italy
Dear Friends and Colleagues

It is a great pleasure to welcome you to Lisbon for the European Meeting on Laparoscopic and Robotic Urologic Surgery. “Challenges in Laparoscopy and Robotics” has reached the 13th edition and the concept that initiated this adventure is quite alive and shows great potential for the future of Urology.

The comprehensive scientific program will include live laparoscopic and robotic surgeries performed by the world’s most prominent urologic surgeons. In the past meetings, we have witnessed many challenging procedures. It is now time to expand our indications and to look forward to new challenges like the Trans-Douglas RARP, the Navigated Kidney surgery, the Robotic Orthotopic New Bladder, the Cava Thrombus in RCC, the retroperitoneal Robotic Partial Nephrectomy, the Retroperitoneal Lymphadenectomy and Challenging Radical Prostatectomies.

We will have the best international speakers touching various topics like the “Ideal” partial nephrectomy, the current status of robotic cystectomy and diversion, Pudendal nerve release, Update of the Pasadena consensus meeting, Challenges in Robotic Prostatectomy and Immunotherapy for renal and bladder cancer.

We are enthusiastically anticipating an extremely stimulating meeting. Live surgery, State of the art lectures, discussions and thought-provoking debates will take place with the participation of the best urologists in the International arena.

Three monitors will transmit three different surgeries at the same time. Each delegate will be provided with headphones with the possibility to select the preferred moderation.

We are very proud to host this 13th International Meeting in Lisbon in the well known Champalimaud Foundation on the border of the estuary of the Tago river. Lisbon is the perfect city for old antiquities and innovative techniques to convene. We hope that the challenging procedures that you will see will lead the way towards defining the future of Urologic Surgery.

See you in Lisbon!
Urological Surgeons will perform innovative procedures, in live surgery, demonstrating the full spectrum of urological procedures. Some of the most prominent Laparoscopic Surgeons are going to perform, in live surgery, four of the best Laparoscopic Urological Procedures available today.

Enzo Disanto, Vito Pansadoro, Vincenzo Pansadoro

Lisbon, Portugal

Inderbir Gill, MD, MCH
Chairman & Professor, Catherine
& Joseph Aresty Department of Urology,
Executive Director, USC Institute of
Urology Associate Div (Clinical Innovation)
Keck School of Medicine,
University of Southern California,
South California, USA

Alex Mottrie, MD
Department of Urology O.L.V.
Clinic Aalst, Belgium

Vito Pansadoro, MD
Director of the Laparoscopy Center,
Vincenzo Pansadoro Foundation
Rome, Italy

Invited Surgeons

Thierry Piéchaud, MD
Center of Urologic Laparoscopy,
Clinique Saint Augustin, Bordeaux
Chairman of Urologic Courses
IFCAD-IFTE
Strasbourg, France

Francesco Porpiglia, MD
Professor of Urology and Head
of the Urology Department
at the S. Luigi Hospital,
Orbassano - Turin, Italy

Miguel Silva Ramos, MD
Assistant of Urology, Department of
Urology, Hospital de Santo Antonio,
Institute of Biomedical Sciences
Abel Salazar, University of Porto
Porto, Portugal

Bernardo Rocca, MD
Urology Department,
RCCS Ca Granda Ospedale Maggiore,
University of Milan
Milan, Italy

Jens Uwe Stolzenburg, MD
Director of the Department of Urology,
Chairman of International Urological
Training Centre of Laparoscopy and
Robotic-assisted Surgery,
University of Leipzig
Leipzig, Germany

Peter Wiklund, MD
Professor in Urology and consultant
of the Department of Urology,
Karolinska University Hospital
Stockholm, Sweden

Xu Zhang, MD
Chief of the Urology Department,
Chinese PLA General Hospital 301
Beijing, China

Günter Jaenisch, MD
Consultant, Wahrts-Diakonissen Hospital,
Salzburg, and Rudolfinerhaus
Vienna, Austria
Invited Speakers

Claude Abbou, MD
Professor of Urology
Henn Mondor Hospital
Creteil, France

Claude Schulman, MD, PhD
Professor of the University
Honorary Chairman Dept Urology
Editor Emeritus European Urology
Clinic Edith Cavell
Brussels, Belgium

Vincenzo Ficarra, MD
Director of the Department of Urology
University of Udine
Udine, Italy

Corina N. Sternberg, MD, FACP
Chairman Department of Medical Oncology
San Camillo and Forlanini Hospitals,
Rome, Italy

Markus Hohenfellner, MD
University of Heidelberg,
Heidelberg, Germany

Domenico Veneziano, MD
Dept. of Urology and kidney transplant
A.O. BVM, Reggio Calabria, Italy

Giacomo Nuvara, MD
Associate Professor of Urology
University of Padua
Padua, Italy
Patient’s Advocates

Tomé Lopes, MD
Director of the Department of Urology
Hospital de Santa Maria
Lisbon, Portugal

Garcão Nunes, MD
Vice-President of The Portuguese Association of Urology
Department of Urology
Hospital dos Lusíadas
Lisbon, Portugal

Eduardo Silva, MD
Director of the Department of Urology
Instituto Português de Oncologia
Lisbon, Portugal

Moderators

Alessandro Amici, MD
Department of Urology
Fatebenefratelli Hospital
Rome, Italy

Fernando Calais da Silva, MD
Assistant of Urology

The history of the Champalimaud Foundation begins in the mind of a Portuguese visionary and entrepreneur.

A highly successful industrialist and financer, António de Sommer Champalimaud decreed that following his death part of his fortune should have been used to create an international project in the field of biomedicine.

The mission of the Foundation is developing advanced biomedical research programmes and provide clinical care of excellence. Main focus is translating pioneering scientific discoveries into solutions which can improve the quality of life of individuals around the world. By its actions the Foundation Champalimaud strives to be a world leader in scientific and technological innovation with the ultimate aim of preventing, diagnosing and treating disease.

Nowadays the Foundation is still guided by the constant challenge of finding new solutions to humanity’s most pressing health problems.
