

# AROUND THE KIDNEY

INTERNATIONAL SURGERY, KNOWLEDGE, AND TECHNOLOGY

NOVEMBER 28-29, 2018

NIGUARDA HOSPITAL, MILANO

CHAIRMAN:

ALDO BOCCIARDI — ALEX MOTTRIE

**MILAN**  
**2018**

Dear Colleagues and Friends,

The treatments for Kidney and Upper urinary tract cancer are quickly evolving. Research and technology dramatically changed the approach to those diseases. Partial nephrectomy has become the standard treatment for the majority of kidney masses, irrespectively of tumor size, but still kidney and urothelial cancer might need challenging surgery, with radical nephrectomy removing the whole ureter or tumor thrombus in the renal vein or in vena cava.

Minimally invasive surgery has allowed to reduce complications maintaining the possibility to spare the kidney whenever technically possible and oncologically safe; it is still debated if laparoscopy and robotic surgery offer similar results. Moreover, virtual reality, 3D printing and hologram systems gave further insights in the anatomical structure of the kidney improving surgical outcomes.

During the course, some of the most expert national and international surgeons in the world will show in live and semi-live surgery the advantages and disadvantages of their approaches, showing specific tips and tricks. Finally, the medical treatments for the advanced situations are shifting their paradigms with new molecules and drugs. Expert panels of urologists and oncologists will make the point of the current knowledge on these topics.

In the third year of the urological courses organized in the historical and innovative Niguarda Hospital, coming after the successful Around the prostate and Around the bladder, Around the kidney will give you a 360° vision of the most innovative treatments for kidney and upper tract urothelial cancer. Save the date and come to Milan!

THURSDAY — AROUND THE KIDNEY 2018

08.30 – 09.00

Ethics in live surgery / The experience of CiLR

Vito Pansadoro

09.00 – 11.00

**Moderators**

Presentation of live surgery cases – Resident / Fellow

**LIVE SURGERY - SESSION 6**

Michele Gallucci, Eugenio Brunocilla

**OR1**

Robotic partial nephrectomy

Christophe Vaessen

**OR provoker**

Costantino Leonardo

**OR2**

Laparoscopic Partial Nephrectomy

Antonio Alcaraz

**OR provoker**

Marco Borghesi

11.20 – 11.40

Surgical moviola

Antonio Galfano, Christophe Vaessen, Antonio Alcaraz

**LECTURES – SESSION 7****Moderators**

Marco Carini, Francesco Porpiglia

11.40 – 12.20

Surgeon vs kidney; surgical approach in radical nephrectomy and nephroureterectomy

Open — Giuseppe Martorana

Lap — Romain Boissier

Rob — Gennaro Musi

12.20 – 12.40

More than open, extracorporeal: the case of atrial thrombus.

Niguarda experience in extracorporeal circulation

Claudio Russo, Aldo Bocciardi

12.40-13.00

Less than laparoscopy, endourology: the case of upper tract transitional cell carcinoma.

Guido Giusti
