Surgery in the 3rd millennium

Dear Colleagues and Friends,

It's our great pleasure to welcome you for the third edition of Surgery in the 3rd millennium: Future is Female, to be held in February 26th-27th 2021.

Considering all the exceptional circumstances we are living for the pandemic we believe that our message cannot be postponed for another year and we decide to go virtual. Hoping to reach all of you with a crucial message in a disruptive platform. While this activity could not replace the enrichment of presential meetings we can promise we will do our best to connect, engage and promote a lived discussion. You won't be deceived!

The comprehensive scientific program will include live laparoscopic, robotic and endourological surgeries performed by prominent urologic surgeons; as well as lectures on different urological sub-specialties, for your clinical education and learning.

Of all the medical specialties, the number of women in urology is one of the lowest. However now percentage of female students in medical school around the world is increasing and women constitute a majority in the ranks of younger doctors.

Although there is growing evidence that female urologists are being represented in all the fields of the Urology specialty it is true that frequently they are underrepresented on live-surgery meetings non-focused on female or functional urology.

It is crucial that all organizations working in surgery guarantee recognition of women surgeons, to minimize inequality and for preserving the future of the specialty by removing barriers.

In this sense we give voice to well-known and recognized female urologic surgeons, breaking stereotypes and challenging the standards, sharing the podium with compromised male urologist that want to break the barriers of all-fashioned traditions.

We think that this meeting beside being useful and diverse from the scientific point of view, it could represent a great motivation for female students, young residents, and urologists who are frequently engaged by role models

Goals like these only could be achieved if ALL of us, as urologists, work together.

We are looking forward welcoming you in Barcelona,

Franco and Maria

INVITED SURGEONS

Almudena Coloma

Department of Urology. Hospital del Henares, Madrid. Spain
Female and Functional Urology. Instituto de Urología LYX, Madrid. Spain

Karen Fransis

Department of Urology Antwerp University Hospital, Antwerp, Belgium

Karin Lehrich

Department of Urology , Vivantes Auguste-Victoria-Hospital in Berlin, Germany

Mireia Musquera Felip

Department of Uro-Oncology, Hospital Clínic, Barcelona, Spain

Silvia Proietti

Department of Urology, San Raffaele Turro Hospital, Milan, Italy

Maria Jose' Ribal Caparros

Department of Uro-Oncology, Hospital Clínic, Barcelona, Spain

INVITED SPEAKERS & MODERATORS

- **Antonio Alcaraz**
Head of the Department of Urology And Kidney Transplantation at Hospital Clínic de Barcelona, Spain
- **Montserrat Arzoz**
